

## New Owners for Caverion Industria Leppävirta Workshop

Caverion Industria Oy and SKM Service Oy with Leppävirta workshop keypersons Marko Mikkonen and Sampko Huttunen has agreed business contract together 11.7.2018 where Leppävirta workshop business activities will move to new company called **SKM Stainless Oy** First of September.

**SKM Stainless Oy will continue Leppävirta workshop customer service, supplies and production without any breaks.** SKM Service Oy will develop and improve Leppävirta workshops production at this very demanding business environment.

Leppävirta workshop is very traditional and trustful overall supplier of stainless steel tanks, pressure vessels and pipings. Workshop history leads until 1950s when Hackman started to manufacture stainless steel process tanks at Sorsakoski. In these current facilities Leppävirta workshop has been operating since 1996.

Leppävirta Workshop supplies differend kind of tanks, pipings and machine component. Scope of supply can include following: material. fabrication, design, engineering and erection. For us differend grade of stainless steel materials like duplex, super duplex, and titanium are not rare.

Examples of suplied products: pressure vessel, differend kind of tanks, reactors, scrubber, channels, pipes, pipe parts and prefabricated pipe line spools.

With Kind Regards
